Grecian Consul Serves Notice on the Southern Pacific, Warning It Against Settling Claims.

OGDEN, Utah, Feb. 29.-George H. Teolomiti, consular agent for Greece, who arrived from Butte, Mont., has served notice on the Southern Pacific Railroad company, warning it against settling claims for dumages growing out of the Jackson explosion. In which sixteen Greeks lost their lives He has discovered an effort on the part of interlopers to defraud the real heirs, who live in Greece.

#### MAYOR VETOES BILL TO REPAIR CITY HALL

Ordinance Granting Franchise to Ogden Rapid Transit Company

The City Council last night received a communication from the Mayor, in which he vetocd the action of the Council in au-thorizing repairs of the city halt. The matter was referred to the Public Buildings and Grounds committee.

The notice of intention to open Hudson avenue was ordered published after an

avenue was ordered published after an amendment making the alley sixteen feet instead of twenty-four feet wide had been passed. The Fire and Sanitary committees were ordered to make a report on the condition of the Grand Opera-house.

The claim of Weber county for \$1377.36 for collecting city taxes, and miscellaneous claims amounting to \$344.64, were ordered paid.

The claim of Weber county for \$1377.36 for collecting city taxes, and miscellane ous claims amounting to \$836.65, and payrolfs amounting to \$844.64, were ordered paid.

The clerk of the municipal court reported fines collected amounting to \$2016.70 for the month of February.

The ordinance granting a franchise to the Ogden Rapid Transit company to construct a sireel car line along Wall avenue was passed upon third reading. Mr. Moyes made a vigorous talk, contending that the city should get something for the franchise, and stating that the streets of the city belonged to the taxpayers, and that every Councilman should consider that he was there to obey the wishes of the taxpayers and not his own. Councilman Paine made at amendment to the ordinance, providing that the company should furnish transportation free to all members of the fire and police departments. Mr. Chambers made a short talk, in which he intimated that he feared that the company would not accept this valuable gift at such an extravagant outlay as furnishing passes for these officials, but nevertheless the amendment was added to the ordinance, and the firemen and policemen will ride free or the company won't get the franchise.

Chairman Murphy, Secretary Hall and all of the members of the Republican city central committee sent in a communication indorsing Dr. Jenkins for city physi-

men failed to reveal the terms of the agreement, they not appearing to know anything about the transaction, simply acting on advices from Sacramento. The men in the local shops struck on an order from California, and went back to work upon instructions from the same source. They do not appear to know any more about the actual business of the transaction than an outsider.

News of the settlement of the strike will be received with gratification in Ogden. It was seriously feared that other orders would be called out in sympathy with the boller makers, and a great deal of concern was felt over the result of the strike. snything about the transaction, simply

NEW ICE COMPANY INCORPORATED AT OGDEN

An Ice combine was perfected in Ogden yesterday morning. The Farr Bros. Ice company, the Mountain fee company, the M. L. Jones Coal and Ice company and the John Farr Coal and Ice company and the John Farr Coal and Ice company are known to be in the combine, and it is said that others are also ready to John. The new concern will be operated under one head, and will have but one system of delivery. They claim that they will not raise the price of ice, and that the sole reason for the consolidation is simply to better serve their customers and provide a more uniform system of delivery. Notwithstanding the statement made by the parties interested, there are those who fear that it means virtually an ice trust, and that the price of ice the coming season will be sent sky high. But little of the inner details of the effair could be learned last night, but it appears that every company in the city either has joined or will join the consolidation.

#### SNOW IN CACHE AND ELECTRIC PLANT

Special to The Tribune.

LOGAN, Feb. 29 .- Cache valley has just been visited with the heaviest fall of snow in a single day and night for a long time. All day yesterday and all last night snow fell fast and this morning the ground is covered with over a foot of the beautiful. Previous to the storm the thaw was complete, leaving the ground bare, so that it is all new snow. The deposit in the mountains is exceptionally heavy, assuring a good water supply for the coming season.

The municipal electric light plant is a record breaker in breeding candidates for office. The way a dozen or more for office. The way a dozen or more men are campaigning, hand shaking, culogizing themselves. "just in the hands of their friends," etc., is a caution. In fact there are more men after the managership of the plant than were ever known to be after any other office in the city or county. A few days ago it looked like Mr. Ricks would be able to check the nine but since then the gental figure of Senator A. G. Barber gental figure of Senator A. G. Barber has loomed up in the distance and as he has never received but slight recognition at the hands of his friends, he cover several thousand acres of available farm lands in addition to the areas under the old capal. The work of contraction of the new cannel will be perfectly as the second structure of the water the Railroad Company.

The strike has been settled and the men returned to work in the Ogden shops last night. Interviews with a number of the men failed to reveal the terms of the feated young Mr. Bullen by a very narrow margin for State Senator at the polls. Since his coming into the race some of the candidates have taken to polls. the tall timbers. Mr. Martineau, after making an aggressive campaign, and personally appealing to the Mayor and majority of the Council, now announces that he is not a candidate; some of the others say they would not have it, and the remainder are wondering and waiting to see if the time has arrived when they, too, are going to meet their Alonzo G.

> In the meantime the Democracy are crying. "Take the plant out of politics."
> and are berating the Council because there is a chance for Joel Ricks, Fred Scholes, or W. H. Thain to become manager, and from the fact that these men are Republicans they claim politics would downste and the last the tics would dominate and the best in-terests of the people would not be sub-served. At the same time they are pushing such partisans as Barber, Blair, Martineau, and it does not choke them to say that the appointment of such rank partisans would take the affair-out of politics. They are going on in their old way, "strain at a gnat and swallow a camel," but the people are somewhat acquainted with their his-tory and well know how they would keep the matter out of politics and from the signs of the times it looks as though it fould be some time before the Democracy will have the chance to gold brick the people either in the city or

Special to The Tribune.

MT. PLEASANT, Feb. 29 -The postof fice at Fairview was broken into and robbed some time during last night. When robbed some time during last night. When the postmaster went to open up this morning he found the door broken open and that the safe had been broken into with hammer and chisels, as the tools were left on the floor and no sign of any powder having been used. About \$130 in money was taken, but the stamps were untouched. Local officers are working on the case, but no positive clue has been obtained as yet, although two or three suspects are being closely watched.

STORE BURGLARIZED AT SPANISH FORK

SPANISH FORK, Feb. 28.—The Spanish Fork Co-op store was burglarized early yesterday morning. A window-pane was broken in the rear of the new building and entrance was effected through the aperture. How much was secured they have not been able to fully determine. Some clothing was disturbed, a dollar and a half in cash was taken from the till, and the scrip was scattered over the floor, but it is not known how much was taken. It was all done after 7 o'clock, at which time the nightwatchman left the store. Special to The Tribune

#### ONTARIO CAGE AND HOIST.

Machinery to Operate It Through the Raise From the Tunnel to the Mill Is Installed.

PARK CITY, Feb. 29 .- The installation of the cage and hoisting machinery to operate through the raise from the Ontario tunnel to the mill was completed this morning, and the first ore went through the new route today. Ore eams will no longer be used at the Ontario; the ore in the dump at the mine is being lowered to the 600-foot level and brought through the tunnel and raise, which greatly facilitates the handling. Seven or eight men were put to work today shoveling ore and loading cars. The raise is a double com-partment shaft and two cages are ope-rated with a ten-horse power elec-tric motor. The raise is about 100 feet through. The capacity of the concentrator has increased at a rate that surpasses the anticipations of the man-agement. At first it was thought that only one shift would be worked on account of the dependence of the mill up-on the Park City Electric Light and Power company, but later two eighthour shifts were operated and the out-put has risen to fifty or more tons per day. The mill could not work more satisfactorily, and the prospects for a steady growth in the output of the mine and mill were never better, an event which promises much for the prosperity of this camp.

Special to The Tribune. EPHRAIM, Feb. 29.-Gunnison vater-owners met in mass convention the last of the week to consider the proposition of selecting a new course for the big irrigation ditch which now covers a large portion of the land owned by Gunnison farmers. The old ditch is found to be inadequate in several respects. First, the stream has in-sufficient fall, and much of the water is lost by seepage and evaporation; al-so, the area of lands under the canal is considered too small to justify the

# STORE AT SANDY INJURED BY FIRE

SANDY, Utah, Feb. 29.-Fire broke

out early this morning in the general merchandise store belonging to C. C. Crapo of this place, and while no great damage was done by the fire itself. smoke damaged more or less seriously the entire stock of merchandise, as well as the stock in the butcher shop which is located in a room adjoining the store.

The cause of the fire is not known. Sunday the store was locked all day and no fire was made in the building at all. Sunday evening Mr. Crapo entered the store and made a light to see that all was in proper order for the night, and it appears possible that an unextinguished match may have been dropped behind the counter in some rubbleh and the fire started from that source. It is evident the fire smouldered nearly all night. A large hole was burnt in the floor, a section of the counter on the west side was burnt out, and a showcase and other things near by were also burnt. But as the store was closely locked and shut up but very little air was admitted and the fire could make no headway, and was not discovered until early in the morning, when someone passing by saw smoke insuing from cracks above the door and windows and gave the alarm. When the store was opened the smoke and heat were so intense that it was impossible to enter. But after some little time those cleared away so that the fire could be reached, and it was extinguished with snow and buckets of water. As the heat and dense smoke were in the storeroom nearly all night, the entire stock of goods and the interior of the walls are blackened and scorched. The heat was so intense on the inside that the snow was melted from the top of the building. No estimate can be given of the loss as yet, but the building and stock were well covered by Insurance. entire stock of merchandise, as well as the stock in the butcher shop which is lo-
